## Design Guidelines:

Maintain a cohesive style throughout the website by using the same fonts, colors, and iconography across all sections.

Divide sections logically (e.g., Header, About, Projects, cv, Contact)

# One Step At A Time!

## Hello! I'm Tsigemariam Zewdu 👋

By day, I'm a third-year Software Engineering student acing my academics. By night, I'm a Full-Stack Developer. I'm a problem-solver at heart, driven by curiosity.Whether it's crafting clean code or brainstorming innovative ideas, I'm all in.

# In this section you will know who I am and what I love to do.

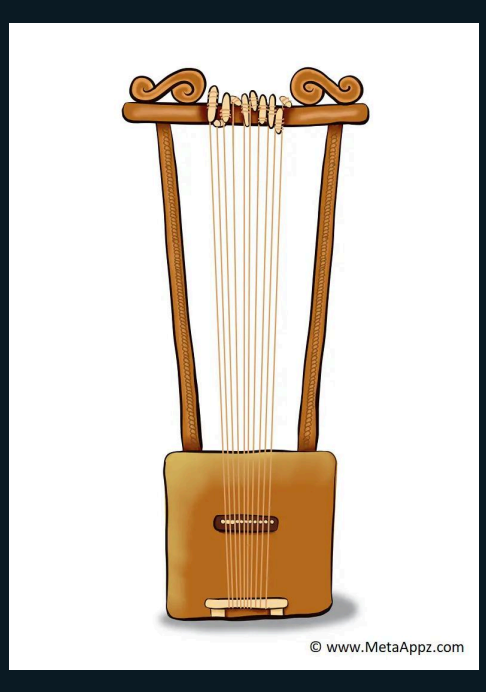
With a love for space science and coding, I'm on a mission to decode the universe. Using my coding skills, I plan to explore galaxies, solve cosmic mysteries, and design tech to help humans reach the stars. It's not just a dream—it's a long-term plan fueled by ambition and curiosity. 🚀

I'm a huge fan of Stephen Curry and love hitting the court to play basketball. Whether it's practicing my shots or playing in a game, basketball is my way to stay active, have fun, and channel my inner Curry with some fast-paced action!

I love sharing knowledge, as it not only helps others but also deepens my own understanding of the concepts I teach. Teaching is a rewarding way for me to reinforce my grasp of the material while inspiring others to learn and grow.

Traveling is one of my greatest passions—I love exploring new places, immersing myself in different cultures, and creating unforgettable experiences. If you're also a travel enthusiast, reach out to me on social media, and we can plan our next adventure together!

Drawing is one of the ways I express myself, allowing me to dive deep into the beauty of nature and appreciate the finer details of life. Each sketch or stroke helps me connect with my emotions, translating them into visual art. Through drawing, I find peace, creativity, and a unique way to reflect on the world around me, capturing its essence in my own style.



Once a week, I play the harp as a way to connect with God, expressing my praise and gratitude through music. It's a peaceful and creative escape that brings harmony to my life and strengthens my faith.
